OPTION #1

I do not own this property. To the best of my knowledge, the property owner is:

\_\_\_\_\_

Their address is: \_\_\_\_\_

OPTION #2

I do own this property and I hereby authorize Jackson Electric Cooperative to retire the service at the given location \_\_\_\_\_ as I have no further use of it. I understand retiring the service may very well include removal of transformer, meter loop, pole, wire, etc. I also understand, per Jackson Electric Cooperative's Rules & Regulations, once a service is retired (abandoned) and the same property owner later desires service to be restored at the same or similar location, the property owner must pay 100% of the new construction costs in advance.

OPTION #3

I  own or  lease this property and hereby authorize Jackson Electric Cooperative to disconnect the meter at location \_\_\_\_\_. I want to retain the service at this location for future use. I am aware there will be an "Idle Rate" of \$145 per month billed to me. There will be a \$75 reconnection charge once the meter is reconnected. If there is an area light at the location, I want the light  ON  OFF. If the light is left on, I will be billed the monthly fee for the light along with the "Idle Rate".
