

Heat Pumps

2017 Energy Efficiency Rebate Form

Your Touchstone Energy® Cooperative

Jackson Electric Cooperative is an equal opportunity provider and employer.

ELIGIBILITY CRITERIA

- ❖ Equipment must be purchased and installed in 2017 on Jackson Electric Cooperative's lines.
- ❖ Rebates are in place through December 31, 2017, or until funds are depleted. **Availability of rebates and incentives is subject to change without notice.**
- ❖ Rebate not to exceed 50% of the cost of equipment.
- ❖ Rebate not allowed for a measure and a component of that measure. For example, if an air source heat pump has a variable speed blower motor, the air source heat pump qualifies for a rebate but not the variable speed blower motor.
- ❖ Submit the documentation listed below within **60 days of invoice date** or no later than January 2, 2018, whichever comes first. Members are encouraged to submit as soon as possible to ensure rebate:
 - ✓ Completed rebate form
 - ✓ A copy of your receipt or invoice for each item purchased
 - ✓ For heat pumps and furnaces with efficient ECM blower motor, include documentation showing the equipment has been installed
- ❖ All heat pump incentive requests in excess of 6 tons at one meter location will be evaluated individually on a custom basis instead of receiving the prescriptive incentive.

Submit required documentation to: Jackson Electric Cooperative, PO Box 546, Black River Falls, WI 54615
